

Employment Ontario Information System (EOIS) Case Management System (CaMS) Bulletin

EOIS-CaMS Release 5.3

The purpose of this bulletin is to provide Canada-Ontario Job Grant (COJG) and Targeted Initiative for Older Workers (TIOW) service delivery organizations with an update on changes and fixes to functionality in EOIS-CaMS Release 5.3 on November 30, 2015.

Canada-Ontario Job Grant (COJG)

Functionality is being added to EOIS-CaMS to support the outcome of the COJG Assessment Tool. The application **Tier** will be recorded at the time the application is approved (or “approved on-hold”). The **Tier** can be changed by using the **Approve** action (even if the application is already in a status of “Approved”) in the COJG Application in EOIS-CaMS.

With the added functionality of **Tier** data recording in the system, COJG delivery organizations will not be required to submit the bi-weekly **Tier** data to MTCU for applications approved after November 27. Please use the following reporting schedule to submit the COJG Tiers reporting template to your MTCU local office for COJG applications approved up to November 27.

Reporting Period Start Date	Reporting Period End Date	Submission Date
09-Oct-15	22-Oct-15	28-Oct-15
23-Oct-15	05-Nov-15	06-Nov-15
06-Nov-15	19-Nov-15	20-Nov-15
20-Nov-15	27-Nov-15	04-Dec-15

A change has been also been implemented to the COJG eligibility requirements for creating an employer service plan. Employers with any 81-series (“Other services, except public administration”) North American Industry Classification System (NAICS) codes are now accepted by the system. Previously, only 811 (Repair and Maintenance) and 812 (Personal and Laundry Services) series codes were accepted.

Targeted Initiative for Older Workers (TIOW)

A defect in TIOW functionality was identified where Custom Basic Plan Items in closed and active service plans had been renamed. The issue has been resolved and names for the plan items have been restored.
