

MEMORANDUM

TO: Employment Ontario (EO) Service Providers Delivering Programs
Managed in EOIS-SP Connect

FROM: Jacqueline Cureton, Director,
Program Delivery Support Branch

DATE: November 10, 2017

SUBJECT: 2018-19 Employment Ontario Business Planning Launch

I am pleased to update you on the timing of the 2018-19 Employment Ontario (EO) Business Plan process.

On November 17, 2017, the 2018-19 EO Business plan templates will be released through EOIS-SP Connect. You will also see a few enhancements to the business planning process resulting from our survey and consultations earlier this fall. Please take a few moments to review the launch communiqué when it is posted.

Your organization will have approximately four weeks to submit your plans to the ministry.

With the upcoming launch, service providers are reminded of the importance of keeping client and employer information managed in EOIS-CaMS up-to-date.

The ministry recognizes the 2017-18 EO Business Planning process was particularly challenging for the network. We are pleased that next week's launch represents a return to our historical planning cycle.

If you have any questions, please contact your Employment and Training Consultant.
