

Supply Chain Centralization Initiative

The Ontario government is modernizing the way that the government purchases goods and services. Through the Supply Chain Centralization Initiative, a new centralized public sector procurement system is being developed to better meet the needs of the people of Ontario.

The Ministry of Training, Colleges and Universities has been asked to share information about the Supply Chain Centralization Initiative with our stakeholders to gather feedback.

For information on the Supply Chain Centralization Initiative, please visit [Doing Business with the Ontario Government](#).

If you are interested in providing feedback, complete the [Supply Chain Centralization Initiative Survey](#) by August 30, 2019.
