

## Employment Ontario Information System (EOIS) Case Management System (CaMS) Bulletin

### **EOIS-CaMS Release 17.3**

EOIS-CaMS release 17.3 is set to launch on September 11, 2017 to all service providers and ministry staff. Release 17.3 includes system enhancements and updated reports.

Key enhancements and system changes are identified below:

#### **Service Plans**

As a result of ongoing consultations with the [EOIS External Reference Group](#), multiple efficiency improvements will be made to service plan functionality, such as:

- The ability to add multiple plan items under one sub-goal without returning to the plan content page
- Pre-population of the Service Delivery Site field in the service plan wizard if the service provider only delivers service at one location
- Adding sub-goals to service plans will become less time-consuming by removing duplicate screens

#### **EOIS Reports**

In release 17.3, Literacy and Basic Skills (LBS) Case Activity Report #61 will now show if a client has more than one service plan with the same service delivery site in the current fiscal year. Several case activity reports will also be updated to reflect inactive clients.

#### **Release 17.3 Resources**

The ministry plans to update EOIS-CaMS support products to help service providers with the changes.

Thank you.
