EOIS-SP Connect Release 18.1

On April 20, 2018, the ministry plans to launch EOIS-SP Connect Release 18.1 with system changes for both service providers and ministry staff.

What is new in Release 18.1 for Service Providers?

Itinerant Location

A new Itinerant Location panel to capture itinerant service delivery for each site by program will be added to the Service Provider tab. This panel will be available to edit by all service provider roles as well as select ministry staff.

Better Search

SP Connect users will be pleased to learn that when returning to the search panel after conducting a search, all search criteria entered in the initial search will remain. This change will apply to the following search panels:

- List Business Plan packages
- List Agreements
- List Adjustments
- List Monitoring Reports
- List Service Provider Forecasts

Release 18.1 Resources

To support Release 18.1, the ministry will be updating resources to aid service providers. Specific “EOIS-SP Connect Service Provider User Guide” chapters will be updated to reflect the changes implemented in this release. These chapters will be available under the [“Guides and Resources”](#) section of EOIS-SP Connect on the Employment Ontario Partners' Gateway (EOPG).

Thank you.
