

Memorandum

To: Employment Service (ES) Providers
From: Program Delivery Support Branch
Date: July 15, 2016
Subject: Additional funding to support ES youth job placements
Memo#: ES2016-02

Objective

The purpose of this bulletin is to communicate to Employment Service (ES) service providers that an additional \$19.3 million was approved by Treasury Board to provide additional intensive services for youth in the Employment Service program.

Budget Allocation

The additional funding will be allocated to ES service providers to help support more youth placements for 2016-2017. The ministry will send a letter of intent to service providers to inform them of how much additional funding they will receive and what the ministry's expectations are in terms of performance targets.

The amended ES agreement will be effective August 8, 2016. Service providers are however encouraged to start increasing youth placement activity based on their revised funding allocation to ensure their commitments for 2016-2017 are met. Details on the funding allocation and performance targets will be included in the letter of intent to service providers.
