## 2013 Key Performance Indicator Report

Prepared by CCI Research Inc. for Forum Research Inc.

## 2013 KEY PERFORMANCE INDICATOR REPORT RCC 1928 ULC

### Introductory Comments

This report was developed by CCI Research Inc., a subcontractor of Forum Research Inc. ("Forum"). Forum is the third-party service provider (working on behalf of the Superintendent of Private Career Colleges ("Superintendent")) to deliver the services required to calculate and publish Key Performance Indicators ("KPIs") for Ontario's private career colleges ("PCCs").

### Private Career College Key Performance Indicators

For the 2013 Collection Cycle, three Superintendent-defined "PCC KPIs"<sup>1</sup> are posted at the institution, campus, and program levels for PCCs approved to enrol students funded by the Ontario Student Assistance Program ("OSAP"):

1. **Graduation Rate:** the percentage of students that enrolled in a vocational program and successfully graduated from the program within a period that is no more than twice as long as the program's approved duration. The Graduation Rate KPI will not include enrolled students who withdraw from a vocational program within the allowed Grace Period (25% of program duration to a maximum of eight weeks);
2. **Graduate Employment Rate:** the percentage of graduates of a vocational program in the labour force who were employed six months after graduation; and
3. **Graduate Employment Rate in the Field of Study:** the percentage of graduates of a vocational program in the labour force who were employed in a related or partially related field six months after graduation.

The PCC KPIs included in this report represent outcomes for students who graduated during the 2013 calendar year, or were enrolled in programs for which 200% of the approved program duration completed during the 2013 calendar year, or both. Graduate employment data was collected using a Graduate Outcomes Survey conducted during three survey windows in the 2013 KPI Collection Cycle:

1. Students with graduation dates between January 1 and April 30, 2013 were surveyed between October 1 and December 31, 2013;
2. Students with graduation dates between May 1 and August 31, 2013 were surveyed between January 1 and March 31, 2014; and,
3. Students with graduation dates between September 1 and December 31, 2013 were surveyed between June 1 and August 31, 2014.

### OSAP Default Rate

This report also provides OSAP Default Rates for vocational programs provided by PCCs approved to enrol students funded by OSAP. The Default Rate is measured by the number of borrowers who received a Canada-Ontario Integrated Student Loan (COISL) in 2010-11 and did not receive COISL funding in 2011-12, and were in default of their loan repayment obligations as of July 2013.

### Notes & Contact Information

To ensure the protection of students' privacy, Graduation Rate KPI for programs with fewer than five (5) enrolled students have been marked "SS" to indicate that results are based on a small sample size. Similarly, for the Graduate Employment Rate and Graduate Employment Rate in the Field of Study programs with fewer than five (5) graduates and fewer than 5 graduates in the labour force have been marked "SS". For programs with no applicable entrants, or in which no graduates completed the survey, results are shown as "ND" to indicate that no data is available.

Relevant footnotes have been included at the bottom of each page. These usually indicate the respondents who were considered for the current question based on responses to earlier questions.

Please note that only graduates who were contacted by phone, agreed to complete the Graduate Outcomes Survey, and were validated by the Date of Birth question (Q. 44) were eligible to be included in the KPI calculations. For more detail around the Graduate Outcomes Survey and reporting methodology, please refer to the [KPI Operating Procedure](#) and [Frequently Asked Questions](#).

For assistance regarding data, report or policy issues relating to the PCC KPI initiative please contact:

**Data Issues:** Forum Research Inc., [pcckpi@forumresearch.com](mailto:pcckpi@forumresearch.com)

**Report Issues:** CCI Research Inc., [pcckpi@cci-research.com](mailto:pcckpi@cci-research.com)

**Policy Issues:** Rachel Ross – MTCU, [Rachel.Ross@ontario.ca](mailto:Rachel.Ross@ontario.ca)

<sup>1</sup> The remaining two Superintendent-defined PCC KPIs – Graduate Satisfaction Rate and Employer Satisfaction Rate – will be posted for the 2014 Collection Cycle and going forward.

**INSTITUTIONAL AND CAMPUS LEVEL KEY PERFORMANCE INDICATORS FOR  
RCC 1928 ULC**

	GRADUATION RATE (KPI %)	Q6. GRADUATE EMPLOYMENT RATE (KPI %)	Q20. GRADUATE EMPLOYMENT RATE IN THE FIELD OF STUDY (KPI %)
OVERALL - SURVEY POPULATION (All 2013 OSAP- APPROVED PCCS)	77.2%	71.2%	48.0%
OVERALL - RCC 1928 ULC	52.6%	70.2%	38.3%
CAMPUS - RCC INSTITUTE OF TECHNOLOGY, STEELES CAMPUS	50.0%	63.2%	26.3%
CAMPUS - RCC INSTITUTE OF TECHNOLOGY, DAVISVILLE CAMPUS	57.9%	82.1%	57.1%
CAMPUS - RCC INSTITUTE OF TECHNOLOGY, DUNDAS SQUARE CAMPUS	52.7%	66.0%	31.9%

Note: Some of the graduation rates for this institution may have been lowered because a statistically significant number of this institution's students transferred from the institution's vocational programs into its degree programs during the 2013 calendar year. Under the methodology used to calculate the graduation rate KPI, a student who transfers from a vocational program to a degree program is included in the count of students who have dropped out of the vocational program, and no KPI is currently calculated for the degree program. By contrast, a student who transfers between vocational programs is not counted in the graduation rate of the first program the student enrolled in, but rather in the graduation rate of the program to which the student transferred. Users are advised to consider this when comparing this institution's graduation rate to other institutions' rates.
